Projects

- PNEUMATIC CUP MAKING MACHINE**
Our project work is "PNEUMATIC CUP MAKING MACHINE" it can be used making paper cup.(use and throw cup).
This is an era of automation where it is broadly defined as replacement of manual effort by mechanical power in all degree of automation. The operation remains an essential part of the system although with changing demands on physical input as the degree of mechanization is increased.
Pneumatic paper cup forming machine" is a wonderful project topic for mechanical engineering students.
